

Outside spaces around the school

All around Oatlands School there are areas for children to learn and play. Being able to learn and play outside in all weathers is really important at Oatlands.

The reception classes have their own outside play area which all 3 classes share. You will spend lots of time out there playing with some wonderful toys and games.

Outside the reception playground there is a larger playground which the Year 1 and Year 2 children play in at break time and lunchtime. You will use this space for PE and, as you spend more time at school, will go out to play here with the older children.

At the back of the playground there are some woods! Lots of children really enjoy playing in the woods at break time and lunchtime. There are some fun things to climb on and play on

We are also very lucky to have a beautiful, quiet, calm space at the back of our school called the Values Garden. It was funded by the Oatlands School PTA and then designed and built to give all Oatlands Children somewhere to go in small groups to read, draw, learn and be closer to nature.
